

All –

Due to the overwhelmingly positive response to the Green Survey, the Green Initiatives Group (GIG) is proud to announce the arrival of single stream recycling at the main office in Lansing! You heard that right – the collective voice of the masses has been heard!

You may have noticed that today, single stream recycling bins have been placed in the kitchenettes on each floor. The current plan is to have the bins emptied once weekly (on Fridays) by the MSHDA office cleaning crew. But...with your participation and help we hope to INCREASE the amount of recycling we do here and DECREASE the amount of solid waste we generate. Informational signs are posted above the recycling bins in each kitchenette which readily identify recyclables and non-recyclables (see also: attached pdf\*\*).

Additional questions about the program should be addressed to the following:

- 1) First Floor Recycling Co-Captains – Kara Hart-Negrich and Kelly Vickers
- 2) Second Floor Recycling Co-Captains – Emily Petz & Bryan Robb
- 3) Third Floor Recycling Co-Captains – Jeff Fedewa & Peter Hughes
- 4) Fourth Floor Recycling Co-Captains – Natasa Crljenica & Jeff Dutka

The GIG would like to take this opportunity to thank Gary Heidel and Senior Management for their support of this initiative and, of course, all the employees who participated in the Green Survey! Be on the lookout for more sustainability initiatives in the coming months as MSHDA continues its commitment to green.

*En Anacyclismus, Veritas!*

The MSHDA GIG

**\*\* Our building operations management team has asked that LARGE deposits of newsprint and corrugated cardboard continue to be placed in their designated recycling location on the first floor loading dock.**
